MCMTA Junior Outstanding Music Achievement Award (Junior OMA award)

This award is for Middle School students to honor their participation in MCMTA performing events and MSMTA Theory and Keyboard tests. It can be received only once by students in 7th or 8th grade upon completion of all the requirements.

A teacher can apply for the award by mailing an application and supporting documentation at any time during the school year (Sep 1 – May 31), but the shipment of the award will be done only once per school year for all students eligible for the Elementary and/or Junior OMA award.

For example, if a student is eligible for the award in September, and all the documentation is submitted and approved by the chair, a certificate of completion will be sent to the teacher immediately. However, the award will be ordered together with other awards for that teacher as soon as the teacher submits documents for ALL of his/her students who plan to apply for the OMA awards, which could be in the middle, or at the end, of the school year. This is done to make one shipment order per year, per teacher.

An application form, the track keeper page and photocopied documentation of all events (i.e., critiques with the signature of the judges or certificates from the elementary recitals, tests with scores, etc.) should be sent to the chair **either** via mail or email. Documentation will not be returned.

1. 6 MCMTA recitals (competitive or non-competitive, solo or ensemble, any level – elementary, intermediate or advanced)
2. 3 different levels of MSMTA Theory test (levels used for the Elementary OMA may not be counted towards the Junior OMA award. Each level should have a score not lower than 80%).
3. 3 different levels of the MSMTA Keyboard test* (at least 5 modules in each are required with 5 grades not lower than E-). The levels used for the Elementary OMA award may not be counted towards the Junior OMA award.
   *Each level of the keyboard test can be replaced with an extra MCMTA recital for a total of 9 recitals
   Examples: 3 recitals replace 3 Keyboard tests = 9 recitals
   2 recitals/1 keyboard test = 8 recitals + 1 kb test
   1 recital/2 keyboard tests = 7 recitals + 2 kb tests

Montgomery County Music Teachers Association
